

DUTYCALC DATA SYSTEMS

DRAWBACK.NET 2008 SYSTEM

The Drawback.NET 2008 pricing is as follows:

LITE Single-user is priced at \$15,000 plus the cost for the *MS SQL Standard Server 2005 which is running about \$2,000 currently

Standard Single-user is priced at \$20,000 plus the SQL

LITE Multi-user is priced at \$25,000 plus SQL

Standard Multi-user is priced at \$30,000 plus the SQL

The Lite Versions are limited in the types of drawback one can process. LITE Versions allow low to high and direct ID methods, where as the Standard Versions will allow for most any type of drawback processing. Standard Versions allow lesser-of, FIFO & LIFO methods as well as low to high and direct ID methods.

Maintenance/Support is available for \$220 per month for the first user and \$150 per month for each additional user requesting support.

On-line training is included with the licensing of each System. Single-user Versions include 3 hours of on-line training. Multi-user Versions include 4 hours of on-line training. On-site training is available for an additional fee plus travel expenses. Please call Dutycalc for an estimate for on-site training.

* Microsoft SQL Server Standard 2005 is required to operate the Drawback.NET 2008 System
